

ScheduleReader™

Manual Activation Instructions

Software Activation

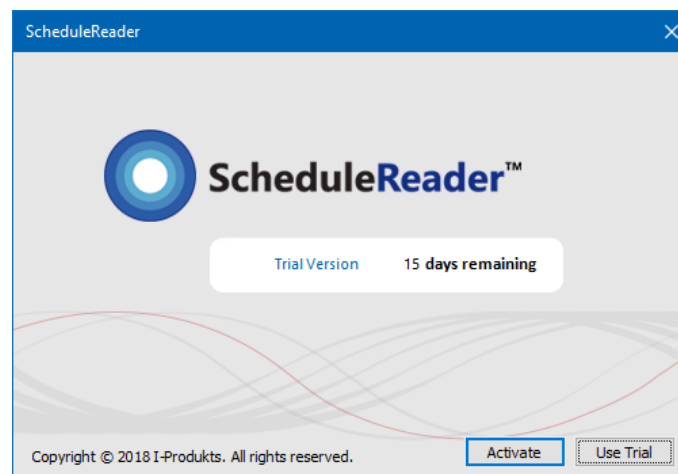

Once the trial period expires, user must activate the software in order to continue working with ScheduleReader™. Two options are available:

- Activation over internet;
- Manual Activation.

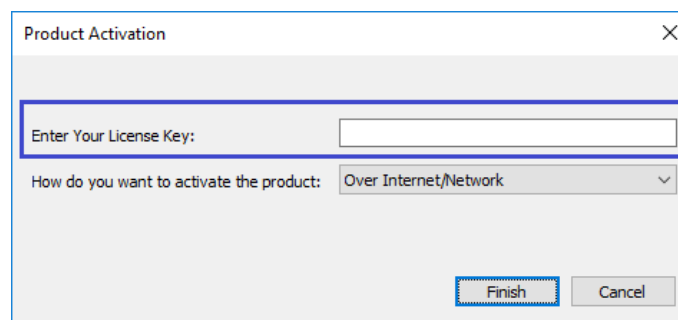

Activation over internet

To activate ScheduleReader™ over internet, follow the instructions steps below:

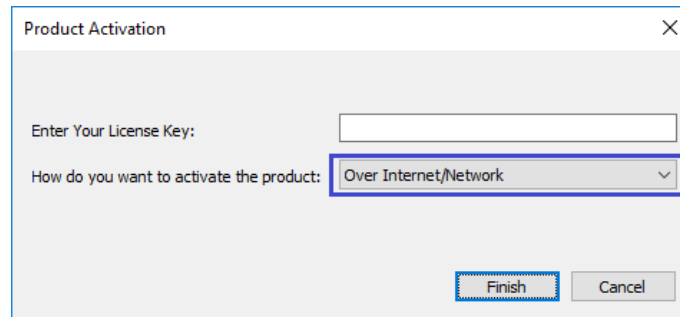

1. In the *Trial* window, click on the *Activate* button. You can do this during the trial period or after the trial period expire.

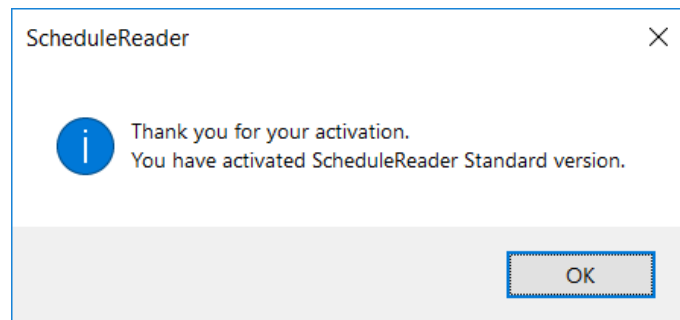

2. In the *Enter Your License Key* field, insert the license key that you had received from the customer center. The License Key can be for the Standard version or for the Professional version.

3. In the *How do you want to activate the product* drop-down list select the *Over Internet/Network* option and click on the *Finish* button.

4. If the License Key is valid and the activation passed successfully, you will be notified with the following pop-up:

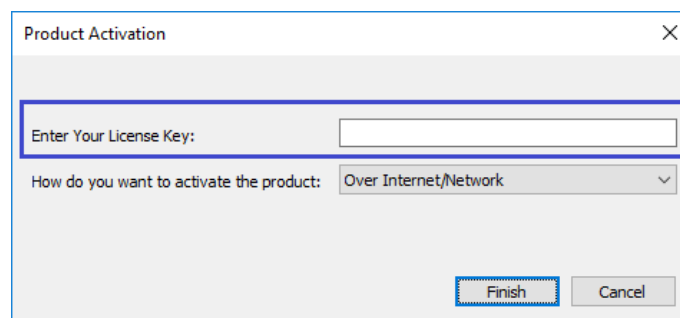

Manual activation

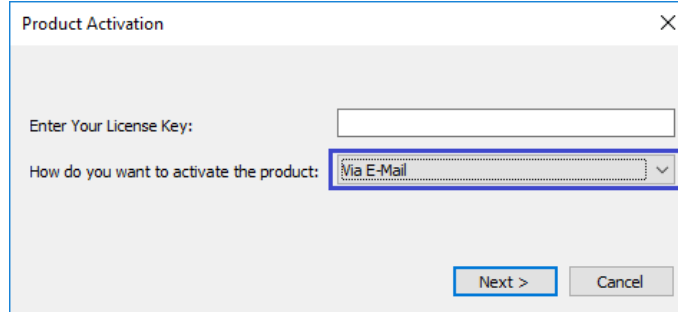

In order to successfully activate your ScheduleReader™, you will need to have read/write privileges on the registry. We recommend you to have Administrator privileges.

To manually activate ScheduleReader™, follow the instructions steps below:

1. In the *Enter Your License Key* field, insert the license key that you had received from the customer center. The License Key can be for the Standard version or for the Professional version.

2. In the *How do you want to activate the product* drop-down list select the *Via E-Mail* option and click on the *Next* button.

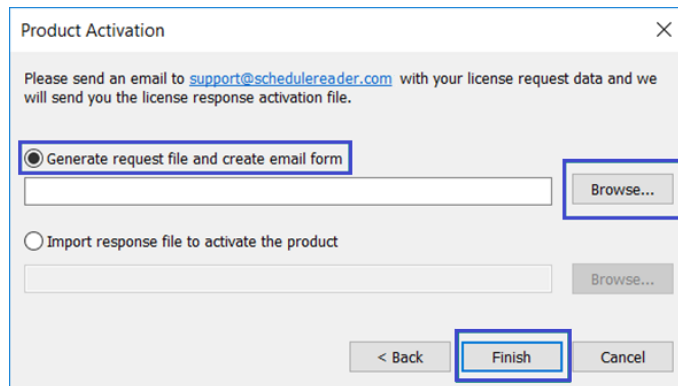

Product Activation

Enter Your License Key:

How do you want to activate the product:

3. Select the “*Generate request file and create email form*” in the activation dialog. Once you have selected the location of the requested file using the *Browse* button, complete the procedure using the *Finish* button. The generated e-mail will be created and you have to send it to the Customer Support representative on the following address: support@schedulereader.com;

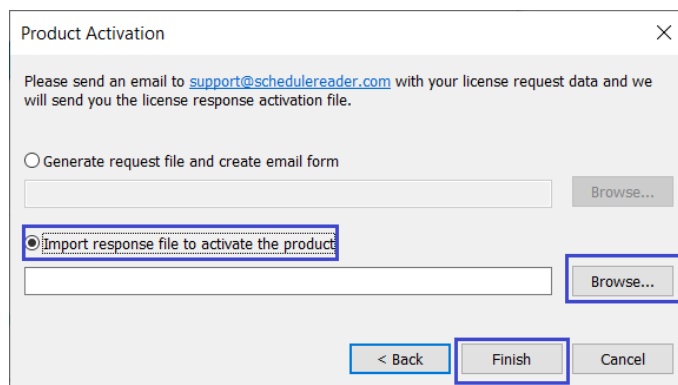

Product Activation

Please send an email to support@schedulereader.com with your license request data and we will send you the license response activation file.

Generate request file and create email form

Import response file to activate the product

4. Once we receive your request, we will generate a respond file and send it back to you. Save the attachment from the e-mail on location on your PC. Start the activation procedure once again. Select the “*Import response file to activate the product*” radio button. Browse the file tat you have previously saved and complete the activation procedure.

Product Activation

Please send an email to support@schedulereader.com with your license request data and we will send you the license response activation file.

Import response file to activate the product

Upgrade from Standard version to Professional version

You can upgrade your ScheduleReader™’s Standard version into Professional by inserting the appropriate license key and activate it.

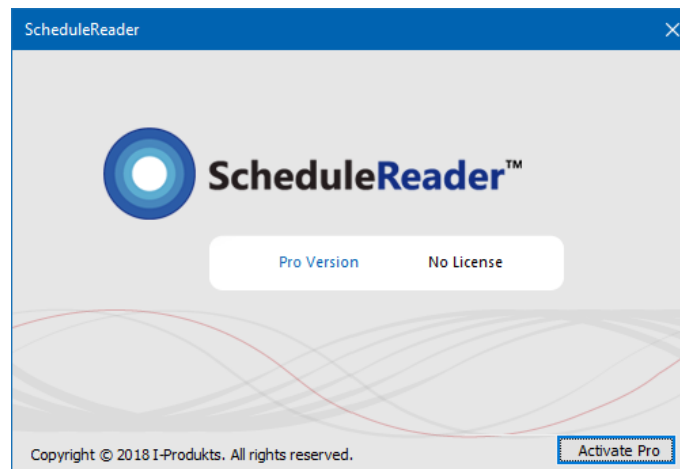

How to know which version I’m running?

Inside the Info sub-menu, in the lower right corner, there is information about your license.

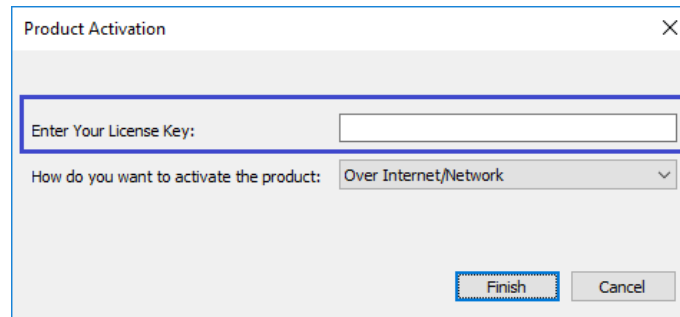

For upgrading to Professional version, perform the following steps:

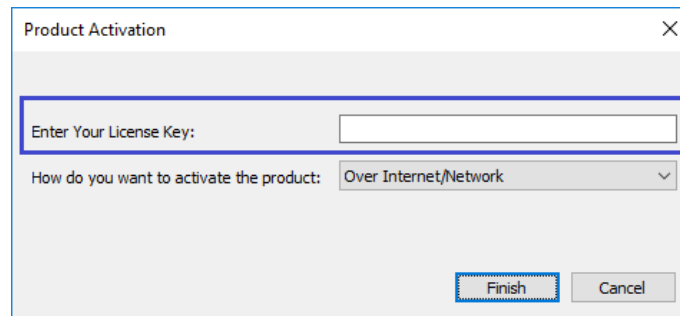

1. Click on the Upgrade to Pro button, located in the Info sub-menu;
2. In the newly open dialog, you will see the information about the status of the Professional version. To continue with the process, click on the *Activate Pro* button.

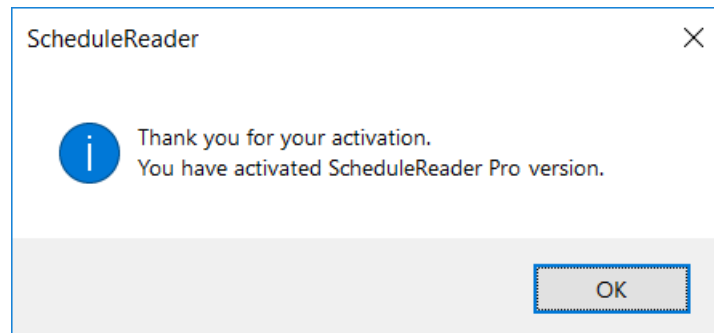

3. In the *Enter Your License Key* field, insert the license key for the Profession version, that you had received from the customer center.

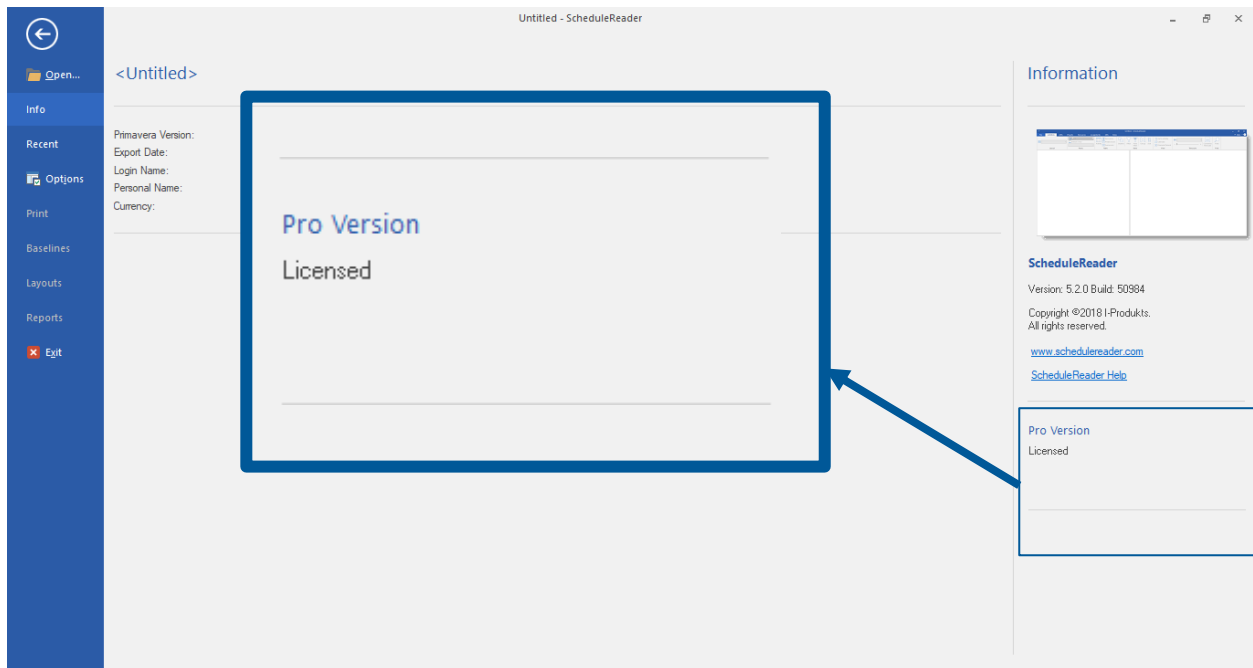

4. In the *How do you want to activate the product* drop-down list select the *Over Internet/Network* option and click on the *Finish* button.

5. If the License Key is valid and the activation passed successfully, you will be notified with the following pop-up:

6. After the activation, the information in the Info sub-menu will look like the image below.
